YOUR RESULTS

Please add up all of the numbers you have circled.

If your total is between 30-50, you are probably a good candidate for the collaborative divorce process.

If your total is between 20-30, you are borderline; that is, the collaborative divorce process may be good for you, provided you are able to make some attitude adjustment before starting the process. Talk to a divorce attorney about great ways to try and accomplish this.

If your total is between 10-20, collaborative divorce may not be right for you, and you may want to choose a "traditional" divorce.
